1. The Alpine area mentioned by ☐ ☒ (refer para. 4 of reference document) during Iceberg discussions in Vienna, 14 June 1948, was suggested to him, rather generally, by one of our agents ☐ ☒ in Salzburg) in early June. ☐ ☒ has since been turned over to ☐ ☒ in Salzburg who has been requested to obtain full details concerning Iceberg usage of this particular area together with proposals for possible ultimate storage of W/T sets, erection of emergency long-range transmitters and similar problems. (Washington: refer MAVA-1597, para. 12, which briefly mentions the status of this plan.)

2. We are also considering having ☐ ☒ survey some of the U.S. Zone Alpine areas suggested by ☐ ☒ with a view toward obtaining detailed cover and operational proposals for possible emergency W/T centers to be established in these areas. These proposals will be forwarded to Washington for study and consideration as soon as possible in order that you may then further plan the emergency disposition of W/T equipment in Austria.
